Blood Bank of Alaska, Inc.

The Blood Bank of Alaska completed construction of its 11,000 square foot building in the summer of 1981. Although planned to accommodate growth and expansion, the building was primarily designed with the donors and the community in mind. Currently occupying the entire bottom floor, the Blood Bank can accommodate up to 175 donors a day. The ski lodge appearance of the facility, with open-beamed ceilings, stone fireplace, and wood paneling provides a warm, non-institutional atmosphere for the donors. The Blood Bank of Alaska was also designed to serve the community as a disaster facility, complete with its own power generation and water supply. In the event of a catastrophic emergency, it can continue to operate when little else can and provide a life-giving service to the people of Alaska.

Blood Bank of San Bernardino and Riverside Counties

The Blood Bank of San Bernardino and Riverside Counties drew its first donor on June 9, 1951. Developed by the two County Medical Societies on the strength of contributions from member physicians, the blood center has grown parallel to the expanding population of the two counties and the 33 hospitals it serves. The center serves its community not only as its sole blood supplier, but as an educational and reference center as well, administering educational seminars and reference and HLA laboratories.

Community Blood Bank Center, Inc.

Established in 1973 as a nonprofit community service for the Coachella Valley, Hi-Desert and San Gorgonio Pass communities. Supplies blood and blood components to six service areas: San Gorgonio Memorial Hospital, Banning, Beaumont, Cherry Valley; Hi-Desert Community-Morongo Valley, Yucca, Joshua Tree, Twentynine Palms; Desert Hospital-Palm Springs, Desert Hot Springs; John F. Kennedy Hospital-Indio, Coachella, Mecca; Eisenhower Medical Center-Rancho Mirage, Palm Desert; Marine Corps Base-Twentynine Palms. We provide lifesaving blood to the Trauma Center and emergency rooms. We collect blood from local volunteer blood donors with the support of businesses, churches, schools and other concerned groups. The Community Blood Bank Center, Inc. is the only local blood bank in the Coachella Valley and operates under the philosophy of making itself self-sufficient in meeting blood needs in order to avoid periodic blood shortages.

Stanford Medical School Blood Center (Stanford University Blood Bank)

Stanford University Blood Bank and the Stanford Medical School Blood Research Facilities are located in the Stanford Medical School Blood Center. Stanford established its own blood program in 1978 in order to better meet the needs of its patients. This was particularly critical for the large numbers of premature infants, cancer patients and cardiac surgery patients who require specialized blood products. The Blood Center staff are nationally acknowledged leaders in developing and utilizing the most advanced techniques. A unique feature of the blood bank program is its integration into the Stanford Medical Center research programs. This benefits patients by providing direct and immediate application of important medical advances made by Stanford scientist and their colleagues. The Blood Center has had a directed donor program since 1983 and strongly encourages autologous donations for patients with a foreseeable need for transfusion.

Belle Bonfils Memorial Blood Center

The Belle Bonfils Memorial Blood Center was officially opened February 27, 1943. In December 1945, it was reorganized and incorporated. In September 1945, it was designated the official blood bank of the Colorado State Medical Society. A small grant from Helen C. Bonfils made the establishment of the Center in memory of her mother, Belle Bonfils. It is nonprofit, self-supporting and the only community blood center in Denver and Colorado. Its set of basic goals are supply, quality, accessibility and efficiency. It provides products and services to more than 58 hospitals and more than 16 Alternate-Site Facilities in Denver and the state of Colorado.

Blood Bank of Delaware, Inc.

Blood Bank of Delaware was established as a donor scheduling/blood assurance program in 1955. In 1977, the organization became a full-service community blood bank serving hospitals in the state of Delaware and northeast Maryland. In 1991, it merged with Blood Bank of the Eastern Shore, which provided donors to hospitals on the Eastern Shore of Maryland and Virginia. Today the combined program provides the total blood needs for the region.

Florida Georgia Blood Alliance

The Florida Georgia Blood Alliance, formerly the Jacksonville Blood Bank, began receiving donors on October 27, 1942. The FGBA was started by the Duval County-Jacksonville Defense Council to support the military and civilian population during the war effort. Since the time of its founding, the FGBA, a non-profit organization, has provided all of the blood and related services to all of the hospitals in the Jacksonville area. The FGBA draws approximately 50,000 units of blood per year.

Manatee Community Blood Center

The Manatee Community Blood Center serves an area located on Florida's fast growing west coast. The volunteer blood donors of Manatee County have always taken great pride in the beautiful and up-to-date facilities of the Blood Center, and have supported the Blood Bank for over 35 years. The Blood Center honors its galloneer donors annually at an awards dinner with invitations sent to over 1,600 donors.

Marion County Blood Bank, Inc.

The Marion County Blood Bank, Inc., is an independent "non-profit", "full service" blood bank that was established May 1, 1957, which continues to provide extensive services to our four county service area. In addition to donor recruitment and collection at our main complex in Ocala, Florida, our Citrus County Inverness Substation, and our active mobile unit, an ever expanding donor apheresis program is sustained. Providing blood and blood products represents only one aspect of the Marion County Blood Bank's commitment to service. Our laboratory facility, located at our main complex, performs donor processing and component preparation, outpatient and reference testing services as well as providing comprehensive 24 hour regional compatibility testing to the hospitals and dialysis centers served. Specialized procedures are also available for hepatitis profile screening, parentage testing and histocompatibility testing. With consistent growth and increasing needs, the Marion County Blood Bank will diversify to meet those needs and continue to provide quality service to our service area.

BLOOD IS LIFE®

Southwest Florida Blood Bank (SWFBB), founded in 1942, is a community healthcare provider serving Hillsborough and East Pasco counties. SWFBB provides pretransfusion compatibility testing for thirty (30) hospitals and clinics through its regionalized service, operating four compatibility laboratories in the Tampa Metropolitan Area. SWFBB has consolidated all educational and training programs into the Transfusion Medicine Academic Center (TMAC). Through TMAC, the SWFBB offers Transfusion Medicine Fellowship and Specialist in Blood Bank Technology (SBB) Programs. It maintains a teaching affiliation with the University of South Florida College of Medicine, Pathology Residency Program. TMAC also offers programs to Medical Technologists and Medical Laboratory Technicians.

American Red Cross Blood Services, Heart of Illinois Region

American Red Cross

The Heart of Illinois Region offers a full range of blood banking services to 53 hospitals. In addition to providing blood products and services to hospitals, the region sponsors a comprehensive care hemophilia program to hemophiliacs throughout central and northern Illinois. The region also supplies physicians throughout the area with bone and other tissues used in transplantation. The region has a clinical laboratory license and performs various tests for hospitals and physicians.

Central Illinois Community Blood Bank

Springfield serves as the capital city of Illinois. It is a city of 105,000 people, located in the central part of the state. The two major industries of the community are government and health. The blood bank was founded in 1971 as a non-profit corporation to meet the blood service needs of participating hospitals. It serves 9 hospitals ranging in size from a 30-bed rural facility, needing under 100 units of packed cells a year, to a 2-hospital urban medical complex of 1,500 beds needing 17,000 units of blood and 14,000 units of components, annually.

Central Indiana Regional Blood Center

The Central Indiana Regional Blood Center (CIRBC) began in 1952 as the Community Blood Bank of Marion County, Inc., a 501(c)3), not-for-profit, tax exempt corporation. It was formed by pathologists and hospital administrators to serve as a clearinghouse for blood movement among the hospitals in Indianapolis. In 1964, CIRBC began actively recruiting blood donors and in 1973, because of added responsibilities, became known as the Central Indiana Regional Blood Center.

Siouxland Blood Bank

The Woodbury County Medical Society and the Sioux City Hospitals sponsored the Siouxland Blood Bank in December, 1967, to serve the blood needs of the city. The Medical Director is a pathologist from one of the hospitals. We supply 13 area hospitals. In 1984 we moved to our larger present facility. A pheresis program was implemented in 1981.

Topeka Blood Bank, Inc.

Nestled near the heart of the state capital and in the city's medical quarter, the Topeka Blood Bank provides 10,000 square feet of comfortable work space. The seven-bed drawing room contains a canteen and an alcove for apheresis. The one-story, wood and natural brick structure contains four medical history booths as well as two waiting rooms to handle days with especially high traffic. On premises labs are: infectious disease lab, component lab, reference lab and freezing lab. A continuing education conference room is available for meetings with blood bank associated groups. Offices and work stations fill in much of the remaining space.

Camp Memorial Blood Center

The Camp Memorial Blood Center (CMBC) (formerly The Blood Bank Center) was dedicated on 12 July 1984 in the memory of COL Frank R. Camp, Jr., MSC, US Army retired. COL Camp was the first Director/Commander of this Center. CMBC is charged with the responsibility for the collection, processing, manufacture and distribution of blood products to military medical treatment facilities in the United States (including Hawaii and Alaska) and Panama. CMBC, founded in 1965, collects blood from military personnel, their family members and Department of the Army civilian employees at Fort Knox and Fort Campbell, Kentucky, and Fort Benjamin Harrison, Indiana.

Louisiana Blood Center/ Blood Center of Southeast Texas

The Louisiana Blood Center was established in Shreveport, June 17, 1942, as the Shreveport Memorial Blood Bank with a grant from the Shreveport Chamber of Commerce and the endorsement of the Shreveport-Bossier Medical Society. In October of 1979, at the request of the local hospitals, additional centers were opened in Alexandria and Monroe. The Lake Charles Center was opened October, 1981. In 1986, the Pelican Tissue Center was formed to collect, process and distribute bones and soft tissue. In 1987, Blood Center of Southeast Texas in Beaumont joined Louisiana Blood Center.

American Red Cross Blood Services, Southeastern Michigan Region

The American Red Cross, Detroit Chapter, established the Detroit Community Blood Center in 1946 at the request of the community. The Chapter had opened the center during the war years for the collection of plasma needed by the Armed Forces and closed it in 1945 at the end of World War II. By 1953, the region had expanded to encompass five counties and was known as the Southeastern Michigan Red Cross Blood Services. Blood is collected at nine regional donor centers and 13 mobile units. The region is located in a major center for the state and provides blood services to 62 hospitals in the five counties it serves.

Community Blood Bank of the Lancaster County Medical Society

The Community Blood Bank of the Lancaster County Medical Society was incorporated as a not-for-profit organization in 1968. Total blood service for the community of Lincoln, NE, provided by volunteers donors was the goal and continues to be the primary objective of the blood center. Centralized recruitment, collection, processing and distribution along with other blood center functions have increased the size of the operation.

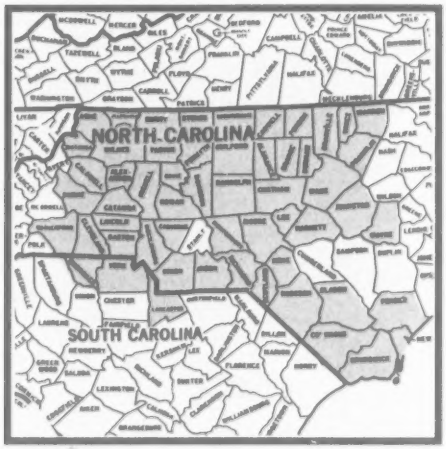
American Red Cross Blood Services, Carolinas Region

American Red Cross



Blood Services Carolinas Region collects an average of 1,150 units of blood a day to provide blood products to more than 90 hospitals in its 56-county area. Collection efforts are coordinated by blood services programs at 54 Red Cross chapters throughout the Carolinas region. Volunteer donors give blood at scheduled bloodmobiles (about 13 mobiles are in operation a day) and at fixed-site locations at each processing facility plus Raleigh and Greensboro. Although each blood donation is processed and stored for delivery at one of the three (3) processing facilities located in Charlotte, Durham and Winston-Salem, the testing and product management functions are centralized at the region's headquarters in Charlotte. An additional collection, storage and distribution operation is housed in Wilmington, North Carolina. The third largest blood region in the American Red Cross system, Carolinas Region is mainly supported by cost-recovery fees charged to hospitals.

American Red Cross Blood Services, Northern Ohio Region

American Red Cross

The Northern Ohio Red Cross Blood Services was established in 1951 to serve an area of 16 counties and approximately 3.6 million people. Today, the Northern Ohio Red Cross Blood Services supplies 92% of the blood for Cleveland hospitals plus 98% of the blood and components for 37 regional hospitals. The region is supplied completely with blood from volunteer donors. The Northern Ohio Red Cross Blood Services offers a complete range of blood products and services, including reference lab, HLA lab, Bone Marrow Registry, Tissue Services, an SBB program and numerous other educational offerings. The Blood Center is dedicated to serving all the transfusion needs of Northern Ohioans in accordance with the highest blood banking standards.

Lane Memorial Blood Bank

Lane Memorial Blood Bank was established under the sponsorship of the Lane County Medical Society and incorporated February 24, 1961. Operations commenced July 1, 1961, with the purpose of providing blood and blood components for Lane County residents in the four area hospitals and one clinic. The blood bank has grown steadily and is now housed in a modern facility which was dedicated in 1978 and expanded in 1983 and 1987 to meet future needs.

American Red Cross Blood Services, Western Pennsylvania Region

American Red Cross

The American Red Cross Blood Services, Western Pennsylvania Region was begun in 1950 at Beaver Valley General Hospital. As the region grew it became necessary to move to a building adjacent to the Beaver County Chapter of the Red Cross. In mid-1985 construction was completed on a new blood center facility in Brighton Township, PA in the Beaver County Health and Welfare Complex. A non-profit organization, it is supported by the American National Red Cross and provides services to 16 hospitals today.

Central Pennsylvania Blood Bank

The Central Pennsylvania Blood Bank is somewhat unique in that 55% of all bloods are drawn in our member hospitals. The remaining 45% is drawn in our bloodmobile units or one of two free standing satellite donor centers. However, we are responsible for 100% of the blood need 24 hours a day, 365 days a year. All donations at member hospitals become part of our master computerized donor call file, which is produced by blood type in order of date of donation. Each member hospital is inventoried twice daily and an anticipated outdate for the next eight days is obtained. Based upon this information, donors are sent to specific hospitals or satellite donor centers for specific needs. Blood is also moved from one institution to another by our courier to minimize outdate. We are also responsible for all public relations and recruitment of all blood donors for the area.

Blood Assurance, Inc.

Blood Assurance became fully operational in January, 1972, through the efforts of three organizations —the Chattanooga Jaycees, Chattanooga-Hamilton County Medical Society, and the Chattanooga Area Hospital Council. Having started as a supplemental supplier, with an administrative office only, it has been the sole supplier of blood products from volunteer donors since 1978, shortly after moving to the present center. Satellite donor stations and other services have been expanded over the years.

West Tennessee Regional Blood Center, Inc.

LIFELINE
Volunteer Blood Program

The predecessor, Jackson Blood Bank, was established by Jack Smythe and Ruby Warner in 1947 as a partnership venture. In 1972, it was sold to West Tennessee Regional Blood Center, Inc. (WTRBC), a nonprofit corporation. FDA license has been continuous since 1949 at which time Jackson Blood Bank became an Institutional Member of AABB. WTRBC draws blood in seven couties, three on the community-responsibility philosophy. The credit system operates in all counties. LIFELINE, Volunteer Blood Program is the Blood Assurance Plan operated by WTRBC. In April, 1983 WTRBC moved into a new 13,450 square foot building.

Central Texas Regional Blood Center

The Central Texas Regional Blood Center is a non-profit regional blood center that was founded by the Travis County Medical Society in 1951. The blood center telephone recruiters provide 58% of the donors in the blood center. The Tissue Bank is active in the Central Texas Transplant Program. The blood donors in Central Texas are extremely big-hearted and respond immediately to our needs—especially in time of shortages.

Governed by a 38-member volunteer Board of Directors, 20-member Blood Services Committee and 30-member Medical Advisory Committee.

Association Membership
American Association of Blood Banks, American Blood Commission, American Red Cross Blood Services

Publications
"Lifeline" (chapters, donor groups, etc.); "Immune Response" (hospitals, med/tech/etc.); "Volunteer Voice" (volunteers region-wide); "Your Blood Matters" (donor groups).

Computer Services
IBM Systems 34

Research Projects
Development of additive solutions for platelets and red cell storage; platelet kinetic studies; in vitro and in vivo evaluation of leukopoor platelet and red cell concentrates through filtration; flow cytometer studies of platelet antigens; investigation of optimal processing methods for additive stored red cells

Virginia Blood Services

Virginia Blood Services was incorporated on October 1, 1990, as the parent company of three affiliates: Richmond Metropolitan Blood Service (RMBS), founded in 1974, and Fredericksburg Area Blood Service (FABS) and Charlottesville Community Blood Service (CCBS), both founded in 1991. These three centers serve hospitals throughout central Virginia.

Spokane & Inland Empire Blood Bank

A 15-member committee of the Medical Society incorporated this not-for-profit community blood bank in 1945. It has operated a central compatibility testing service since its inception. Services include a femoral bone bank, HLA lab, and a complete hemapheresis program. Additionally it serves as a teaching institution for medical technology with the hospitals. In the past year a research and development department was added.

The Blood Center of Southeastern Wisconsin

The Blood Center of Southeastern Wisconsin is a nonprofit service organization which provides all of the blood and blood components used by patients in 29 southeastern Wisconsin hospitals. The Blood Center also offers specialized laboratory services on a regional and national level and is recognized internationally as a leader in blood-related research. The Blood Center of Southeastern Wisconsin is affiliated with Blood Centers of America, the Medical College of Wisconsin and the Milwaukee Regional Medical Center.
